Picket Tobacco Warehouse, HAYNES & GRAHAM, Proprietors, CORNER OF EIGHTH AND MAIN STREETS, Louisville, Ky.

Louisville, Ky.

THE above fire proof Warchouse is much enlarged and is doing a fine business. Our receiptuhave been upwards of 10.000 hogsheads; since the opening of our house-list of October, 1851—and our sales have been very satisfactory. Our mode of selling is as follows, viz: Every hogshead tiput up and sold on its own merits, andafter the sale it is with the owner to confirm or re ect the same, at his pleasure. One Dellar per hogshead covers all charges to the owner, after its arrival at the warchoose; and he receives his money at the warehouse office as soon as the bills can be made out. We are prepared to pay all charges on Tobacco consigned to us, and hold itsubject to the instructions of the owner.

This warehouse is now doing the most extensive business of any Tobacco warehouse in Kentucky, and we piedge ourselves to sitend strictly and prompily to all Tobacco entrusted to our care; and we refer to our past year's business—merchants, shippers, and planters generally.

THE undersigned having procured the exclusive right to this State, effers forsale, First Premi um Machine: MANNY'S PATENT ADJUSTABLE NORTHERN ILLINOIS REAFER AND MOWER.

Awarded the first premium for mowing, and the second for reaping, at the New York State Fair, in the great trial at Geneva and New York, in July, in competition with eleven other Machines; awarded a Silver Medalat the Ohio State Fair for the best reaper and mower; and received the highest award at the Vermont and Michigan State Fairs, forthe best reaping and mowing machine.

The true merit of this Machine has given it a great triumph over all others, and being a perfect combination of a Remper and Mower, it comes to the farmer with double value; and it is clearly demonstrated to be the only successful combination of Reaper and Mower.

As a mower it is sirple and as perfect as though constructed expressly for mowing, and as a Reaper it is as simple and perfect as if constructed for reaping only:—all the change that is necessary from one plan to the other, is to insert er remove a loose platform.

With a pair of horses, one driver, the Machine will mow from 15 to 20 acres per day, depending on the ground. It will reap the same quantity requiring two hands, in running over broken ground. The driver can lower or exceed as he may choose.

he may choose.

The price of the Machine, delivered at Nashville, is \$250, or they will, if ordered, be delivered at Mamphia, or any point on the Mississippi, between there and Mill's Point, or at any point on Cumberland river, between the State line and Nashville, or at Chritanooga, or at any point between there and Nashville, on the Kallroad, at the same price. MEDICAL.

DR. ARHOLD'S UNION PILLS.

GREAT HILL, Tenn., January 19, 1848.

Dr. Arson.—Draw Sin.—I consider it but an act of justice to yourself and the community, to state to you the very great benefit I have received from the use of your Union Pills. Having been for quits a number of years, greatly troubled with dispepsia, and constipation of the bowels; at times alarming me greatly. I used every other remedy, almost that I ever read of head of for the disease, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by faking the different Pills, medicine, &c.; but on hearing my neighbors speak so frequently of the beneficial effects of your Union Pills, I concluded to give them a trial, and bought a fifty cents vial, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost plensure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good these Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the Srst complaint I have given them one or twy. Pills, and never had to repeat the dose but once, which effected a cure. Your other medicines used by my family, have had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, laboring as I have under great debility and dyspepsia, with all their evil consequences, but what would, after a use of your medicines, join me in saying the same of them.

ing at Trenton, Teunessee.

Therefore, Gibson County, Tenn., Nov. 7, 1848.

Messrs, Scoyn. & Mean—Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spleen, which gave her a great deal of pain. The swelling and pain had extended up nearly to the arm-pit, and occasionally she could scarcely breathe. She was confined for a considerble time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hebrew Plaster, and it relieved her almost immulately, and now she keeps a supply of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.

Respectfully, yours, &c.

REAT CURE FOR DYSPEPSIA!—ANOTHER SCIENTIFIC COURT DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE, PREPARED from Rennet, or the Fourth Stomach of the Ox, after the directions of Baron Debig, the great Physiclogical Chemiat, by J. S. Houghton, M. D., Philadelphia, Penn.

selegical Chemist, by J. S. Houghton M. D., Philadelphia, Penn.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Consumption and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Malf a tea-spoonful of Persin, infused in water, will digest or dissolve five pounds of coast beef in about two hours, out of the stomach.

Pepsia is the chief element or digesting principle of the Gastric Juice—the salvent of the food, the purifying, preserving and stimulzing agent of the stomach and intestines. It is extracted from the digestive stomach of the Ox, thus forming an artificial digestive fluid precisely like the natural Gastric-Juice is its chemical powers, and furnishing a complete and reflect substitute for it. By the sid of this preparation, the pains and evils of Indigestion and Dyspepsinare removed just as they would be by a healthy atomach. It is doing wonders for dyspeptics, during cases of Debility, Emaciation, Nervous Decline and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated

and remarkable.

Scientific Evidence.—Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastrie Juice, may be prepared from the nuccous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened,

the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the numan stomach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice is a prominent and all-prevailing cause of Drysepsin;" and he states that "a distinguished professor of medicine in Lendin, who was severely afflicted with this complaint, finding every thing else to fail, had recourse to the Gastrie Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the flumous works on "Vegetable Diet," says: "It is a remarkable fact in Physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Mao," Lee & Blanchard, Philadelphia, 1846, pp. 821-2, says: "The discovery of Pepsin forms a new ern in the chemical history of digestion. From recent experiments we knew that feed is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, Cavotes more than lifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach, and from animals, are well known. "In all cases," he says, "digestion occurred as per-

ments with Dr. Beanmont, on the Gastrie Juice obtained from the living human stomach, and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestion."

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Book of Chemistry," page 386, says: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-book in all the colleges, is inll of evidence similar to the above, to specting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in artificial digestion, or as a remedy for diseases of the stomach, and deficient secretion of the Gastric Juice.

All modern works on Chemistry, Materia Medica and Physical Control of the Castric Juice.

tion of the Gastric Juice.

All modern works on Chemistry, Materia Medica and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigest on and Dyspepsia—so naturally does such a use suggestated to the mind.

Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cases, in Philadelphia, New York and Roston alone. These were nearly all desperate cases, and the cares were not only mpid and wonderful, but permanent.

It is a great nervous antidots, and particularly useful for tendency to Rilious Disorder, Liver Complaint, Fever and Ague, or hadly treated Fever and Ague, and the evil effects of Quinine and Mercury and other drugs upon the digostive organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles health with intemperance.

the too free use of ardent spirits. It almost reconciles health with intemperance.

Old Stomach Complaints.—There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad it may be, it gives instant relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood and vigor of body follow at once. It is purticularly excellent in cases of Nausea, Vomiting, Crampa, Screness of the Pit of the Stomach, Distress after Eating, Low, Cold State of the Blood, Heaviness, Lowness of Spirits, Despondency, kmaciation, Wenkness, Tendency to Insanity, Suicide, &c.
